

End of Lease Pre-Treatment Checklist

**GIPPSLAND
PEST MANAGEMENT**

Description of Treatment

At Gippsland Pest Management, we specialise in end-of-lease flea treatments to ensure you meet your rental agreement requirements, particularly if pets have been on the property. Our service targets fleas effectively, treating carpets, floors, and other area deemed necessary & safe by our technician.

Using safe, professional-grade products, our technicians deliver a thorough treatment to eliminate fleas. We also provide a treatment receipt to meet your landlord or property manager's requirements

Thank you for choosing Gippsland Pest Management for your End of Lease Treatment, prior to our arrival please ensure the following has been carried out:

- The home is completely vacant with no personal possessions/furniture in the home
- Your home has had carpet steam cleaning and the full vacate clean completed before our technicians attend the property
- All lawn areas need to be well maintained and low to allow the chemical to penetrate the soil below
- Ensure all windows and doors are closed prior to and during treatment and until the chemical has dried. Approx. 1-2 hours
- That arrangements have been made to vacate the premises after our technicians arrival for a minimum of 4 hours
- That our technicians are aware of any ponds or pet fish at the property
- All shedding and garage areas that you would like treated are unlocked and access available for our technician

Control Period & After Care Program

This treatment comes with a 3-month After Care Program, which provides coverage for our technicians to revisit your property during this period for any issues related to fleas.

Please note that after the initial treatment, it may take up to **30 days** to achieve full control of the pest population on-site.

Payment Options

Payment for this treatment is required on the day of service. Gippsland Pest Management accepts cash, EFT, and cheque, and our staff are equipped with EFTPOS machines for credit card payments.
